Technology Resources Procedure

Tri-C operates and maintains technology resources to facilitate the achievement of its mission and goals. Access to technology resources is a privilege, not a right. Access may be restricted or denied, and technology resources may be seized at any time and without notice. Users should not have an expectation of privacy in anything they create, store, send or receive using the College's technology resources. Every user is subject to this procedure and to other applicable procedures of the College. To access the technology resources procedure, see Administration Policies and Procedures at tri-c.edu/policies-and-procedures.
